HOW DO WE FULFILL OUR MISSION

Camp provides a safe, structured, child centered environment to play and learn for our campers. Activities games and learning about our 5 key concepts happen daily. Camp is a break from the usual and an opportunity to be a part of a new social experience. Campers work, play and learn together in a new group setting. This leads to new friends, new challenges, and new experiences and builds confidence and curiosity. Campers develop relationships with positive adult role models who work hard to bring out the best in each and every camper. Our camp staff teach life skills, celebrate success, encourage individuality, community and creativity. Camp exposes children to new activities designed to build awareness, social skills, responsibility, leadership and motivation. Camp is where kids discover the best of who they are, and the world around them. Camp is about positive youth development, education and awareness.

Entries will need to be picked up between 6:30pm and 7:30pm on Sunday September 22, 2020.

ANIMAL INTERACTIONS

There will be many different types of farm animals living at camp for the campers to interact and learn about. Baby rabbits, chickens, ducks, goats and a dairy calf will be available for hands on experience.

These animals are all babies and have been handled by children prior to camp. Campers will learn how to handle and care for animals as well as being respectful of their space and needs.

This is not a mandatory activity and if a child does not want to hold, touch, or be near the animal that is acceptable as we respect everyone's likes, dislikes and comfort levels.

BUTTONS PROGRAM

At Ancaster Fair Camp, we use the out-of-doors to facilitate the total education of children through hands on fun experiences. These experiences can easily be attached to life-long learning. Based upon the premise that we all want children to be happy, well-adjusted volunteering members of society, we offer a number of different intentional experiences and activities that encompass specific outcomes, maximizing the participant's experience. We call these outcomes the Buttons Program. This program includes seven life-long skills we strive to foster within our campers. We incorporate these as a means of involving our campers in their own learning and development by earning each button during their time at camp. The principles of the Button's Program, along with the colour of each part, are as follows:

ENVIRONMENTAL (GREEN Button)

- Showing you understand why the environment is important
- Can name different environments
- Showing respect for the environment
- Can explain what we can do to help the environment

GOAL SETTING AND LEARNING (YELLOW Button) LEADERSHIP AND RESPONSIBILITY (BLUE Button)

- Keeping a positive attitude
- Trying something new
- Learning a new skill or knowledge
- Setting a good example and being positive

- Taking care of, and being respectful of others things
- Putting things away and cleaning up after self/others

CREATIVITY (ORANGE Button)

- Making something with your own design
- Exploring and discovering
- Being excited to try new things

- Respecting and following instructions

AGRICULTURE (BROWN Button)

- Naming different foods produced in Ontario
- Celebrating our different food preferences
- Planting a seed and watching it grow, identify crops
- Learning where our food comes from

These principles are weaved and sewn through all parts of the camp experience. Some activities stress or involve some more than the others at times, but in a camp day filled with opportunity, we will certainly meet them all. Our hope is to instill the core 7 life skills along with communication, sportsmanship, co-operation, and confidence. A debrief is a part of every program to ensure that the points of the Buttons Program are discussed in a variety of ways while at camp. The campers will wear their buttons with pride on a bracelet they will make and earn at camp.

EARLY/AFTER HOURS CARE

Early/After hour care is available to those who need it. Please contact the fair office to make these arrangements as it is on a first come first serve basis. There is an extra fee for the extended care. Early drop off and/or late pick up is \$20/family each ½ hour prior to 8:30am or after 5pm and must be reserved before camp sessions begin.

Each camper will bring a packed lunch to camp with them every day. Please send a nutritious lunch with some extra snacks as the kids will be very busy and very hungry.

There will be a refrigerator where all lunches will go until lunch time and there will be time in the afternoon for a snack. We will be baking with the campers on Tuesdays, the cookies, muffins or rice crispy squares the kids make will also be used at snack times.

We cannot provide an allergy free environment, as each and every lunch is packed at home. If there is a severe allergy concern it is imperative that you speak to us prior to camp so we can ensure the safety of your camper.

COVID MEASURES

- Ensuring all toys and equipment used at the summer day camps are made of material that can be cleaned and disinfected (i.e., avoid plush toys, playdough) or are single use and are disposed of at the end of the day (e.g., craft supplies);
- Minimizing the sharing and frequency of touching of objects, toys, equipment and surfaces, and other personal items;
- Increasing the frequency (minimum twice a day) of cleaning and disinfecting objects, toys, equipment and frequently touched items;
- Cleaning and disinfecting, at least twice a day, frequently touched surfaces. These surfaces are most likely to become contaminated, including doorknobs, water fountain/cooler knobs, light switches, toilet and faucet handles, electronic devices, and tabletops. Refer to PHO's Environmental Cleaning fact sheet;
- Only using cleaning and disinfectant products that have a Drug Identification Number (DIN). Low-level hospital grade disinfectants may be used;
- Checking expiry dates of cleaning and disinfectant products used and always following the manufacturer's instructions. Ensure that the product used are compatible with the item to be cleaned and disinfected;
- Performing and promoting frequent, proper hand hygiene (including supervising or assisting camp participants with hand hygiene). Hand washing using soap and water is recommended over alcohol-based hand rub (ABHR) for children. Refer to PHO's How to Wash Your Hands fact sheet
- Incorporating additional hand hygiene opportunities into the daily schedule. This may be needed in instances where toileting and assistance with activities of daily living are provided to camp participants.
- Encourage physical distancing of at least 2 metres between camp participants, parents/guardians and staff
- Spreading camp participants out into different areas
- Spreading furniture, camp equipment, and activity stations out into different areas
- Using visual cues (e.g., signs, posters, floor markings, etc.)
- Considering staffing ratios and staff expertise that may be needed to support camp participants with special needs. Physical distancing may be more challenging to achieve for participants who have communication issues or behaviour challenges.
- While close contact may be unavoidable between members of a cohort, physical distancing and general infection prevention and control practices should still be encouraged, where possible
- Face coverings (non-medical masks) should be used if physical distancing of at least 2-metres cannot be maintained between cohorts. Face coverings may not be tolerated by everyone based on underlying health,

behaviour issues or beliefs. Consideration should be given to mitigating any possible physical and psychological injuries that may inadvertently be caused by wearing a face covering (e.g., interfering with the ability to see or speak clearly, or becoming accidentally lodged in equipment the wearer is operating). Face coverings should be changed if visibly soiled, damp, or damaged. Education must be provided about the safe use, limitations and proper care (e.g., cleaning) of face coverings.

- Personal belongings brought to camp should be minimized. If brought to camp, personal items (e.g., backpack, clothing, towel, water bottles, food, devices that support alternate communication methods, etc.) should be labeled and kept in an area designated for the individual's cohort and should not be handled by individuals from other cohorts;
- Camp participants should bring their own sun protection, and this should not be shared
- Avoid getting close to faces of camp participants, where possible.
- Avoid singing activities indoors and ensure physical distancing for singing activities outdoors.
- Do not plan activities with exposures to animals or pets that involve frequent touching by different camp participants (e.g., petting zoo, animal visitors, etc.). Activities with limited or no touching (e.g., horseback riding, wildlife viewing, etc.) should follow all requirements for health and safety as set out in this guidance as well as the Recommendations for the Management of Animals in Child Care Settings document.
- Pick-up and drop-off procedures should support physical distancing and cohorting using strategies such as, but not limited to: avoiding group transportation, separate cohort entrances, having one designated parent/guardian pick-up and drop-off each camp participant, staggering entry, or limiting the numbers of people in entry areas.
- All individuals, including camp participants, parents/guardians, staff, and visitors must be screened either at home prior to arrival or upon arrival at program setting prior to entry. Deny entry to any individual who has any of the symptoms outlined in the COVID-19 Reference Document for Symptoms on the Ministry of Health's COVID-19 website or who has come in close contact with a person with symptoms of or confirmed COVID-19 in the past 14 days. Camp participants, in particular, should be monitored for atypical symptoms and signs of COVID-19.
- Where possible, daily screening should be done electronically (link provided with registration) prior to arrival at camp. If screening is done at the camp setting, screeners should take appropriate precautions when screening, including maintaining a distance of at least 2 metres (6 feet) from those being screened, being separated by a physical barrier (such as a Plexiglas barrier), or wearing personal protective equipment (PPE) (i.e., surgical/procedure mask and eye protection (goggles or face shield)).
- Alcohol-based hand sanitizer containing at least 60% alcohol content should be placed at all screening stations and entrances to the program. Dispensers should not be in locations that can be accessed by young children.
- Do not permit camp participants who are ill to attend the program. Signs should be posted at screening stations and entrances to the program to remind staff, parents/guardians, and other visitors.
